

NGUYEN TIEN

APPLIED AI ENGINEER INTERN

nguyentien281006@gmail.com • (+84) 857 674 338 • Danang, Vietnam • tienes2810.github.io
github.com/Tienes2810 • linkedin.com/in/tienes2810 • [bkd25.Tienes](https://bkd25.tienes.com) (Expert, 1731)

PROFESSIONAL SUMMARY

Third-year IT student (Japanese Specialization) at DUT; trainee in the **20,000 Practical AI Talents Training Program (VinUniversity × Vingroup)** (Cohort 3). **Codeforces Expert (Max Rating: 1731)** with multiple ICPC awards. Experienced in shipping guarded LLM/agent systems, on-premise Document AI pipelines, and cloud/MLOps infrastructure. Seeking placement at **VinSpace**, **VinUni VRIC** (AI for VinMEC / GSM), and **VinSmart Future**. Japanese JLPT N4 (pursuing N3).

EDUCATION

Danang University of Technology (DUT) – The University of Danang

Danang, Vietnam

B.E. in Information Technology (Japanese Specialization Program) – GPA: 3.33 / 4.0

2024 – 2029

- **Honors Admission:** Directly/early admitted to 3 top-tier tech universities (DUT, VNU-UET, VKU); selected member of DUT's official Informatics Olympiad & ICPC teams.
- **20,000 Practical AI Talents Training Program (VinUniversity × Vingroup):** Cohort 3 (ID: 2A202601655, Jul 2026 – Present), **Track 2: AI Infrastructure** — data pipelines, lakehouse, vector/feature store, model serving (llama.cpp, TTFT/P99), MLOps (MLflow, DVC), Terraform/AWS/GCP, Docker, CI/CD, monitoring, HA/DR, data governance.

TECHNICAL SKILLS

- **Programming & DSA:** C/C++ (competitive, advanced), Python, Java, C#, JavaScript/TypeScript, SQL, Lua, algorithms & optimization.
- **AI, LLM & Agents:** LangGraph, Multi-Agent Systems, RAG, Tool Calling, Prompt Engineering, Document AI / OCR (EasyOCR, VietOCR, YOLOv8), CV, NLP, PyTorch, QLoRA, Ollama, Gemini, GGUF serving.
- **MLOps & Infra:** Docker, Terraform, AWS/GCP, FastAPI, MLflow, DVC, GitHub Actions, llama.cpp (TTFT/P99), Lakehouse, Vector Stores (Qdrant, pgvector, Chroma, FAISS), Feast, HA/DR, PII Guardrails, Langfuse.
- **Full-stack & DB:** React, Next.js, Node.js/Express, PostgreSQL, Supabase (Auth, Realtime, RLS), Tailwind CSS, SQLAlchemy.
- **Languages:** English (Professional Working), Japanese (JLPT N4, actively pursuing N3).

SELECTED PROJECTS

AgentLens – Multi-Agent Observability and RCA

agentlens.dpdns.org

VinAI Practical Talent Program (Team 083) – Full-stack / Agent Engineer

2026

- Shipped a live RCA platform for multi-agent systems with **7 O(1) detectors** (loops, bottlenecks, tool thrashing, token spikes) and a **3-node LangGraph** (Triage → Analyst → Verifier) with span-level quotes.
- Prevented hallucinated config diffs via **HITL approval** and Layer-1 PII redaction; built on FastAPI, Next.js, PostgreSQL 16 + pgvector, Docker.

VietIDP – On-premise Vietnamese Document AI

github.com/Tienes2810/OCR-LLM-RESEARCH

DUT Faculty of IT Scientific Research Initiative – Project Team Lead & Lead AI Developer

2025 – 2026

- Awarded **Honorable Mention (Top 7 Outstanding Projects)** at DUT Faculty Scientific Research Day 2026.
- Engineered a 100% on-premise pipeline (zero cloud data egress): **YOLOv8x** stamp removal → **EasyOCR + VietOCR** → **Qwen2.5-7B** (4-bit) structured JSON → **Chroma** RAG via FastAPI + React + CUDA.

Japanese Learning Platform (PBL3) – Grade A

kanjilearning.vercel.app

Project Lead & Full-stack Developer – github.com/Thainguyen2103/PBL3

2026

- Shipped a full-stack Japanese learning app (PvP Arena realtime, Gemini AI coaching, Kanji graphs) with matchmaking that eliminates lobby race conditions via PostgreSQL FOR UPDATE SKIP LOCKED.
- Also earned **Grade A on PBL2** (C/SDL2 Game Store) and **PBL1** (TSP Visualizer with Branch & Bound + DP Bitmask).

EXPERIENCE & LEADERSHIP

Google Student Ambassador (GSA Vietnam)

National / Danang | 2025 – Present

Official Ambassador – Central Vietnam Representative

- Selected in the **Top 600** nationwide out of 7,000+ applicants; awarded **Top 200 "Gemini Rising Star"** for AI advocacy.
- Organized and hosted hands-on AI workshops on Google Gemini at Swinburne University and Danang University of Technology.

Technical Communities & Informatics Mentoring

Remote / Hue | 2020 – Present

Creator, Administrator & Competitive Programming Coach

- **Kham Pha Khoa Hoc (2020–2021):** Co-founded and grew a STEM science community from 60,000 to **400,000+ members**.
- **Mini World VN (2020–2022):** Developed Lua gameplay systems with **324,000+ downloads**; served as Official Critic.
- **Olympiad Coach (2022–Present):** Mentored Hue high school students in advanced C++ algorithms and data structures.

AWARDS, HONORS & SCHOLARSHIPS

- **Competitive Programming:** **Codeforces Expert** (Peak: 1731); **ICPC Honorable Mention** (National 2025, Southern 2025, Central 2024); **Silver Medal** at DUT Code League 2025; **Central AI Olympiad Regional** (Top 5 DUT); **VNOI Cup 2023 National Finalist**.
- **High School Contests:** Honorable Mention at Central & Highlands Olympiad (2023) and National Youth Informatics (2023); Provincial Informatics Contest 3rd Prize (2022) and Consolation Prize (2023).
- **Honors & Scholarships:** "**Thanh niên tiên tiến làm theo lời Bác**" cấp Trường năm 2026 (DUT); **Google Career Certificates Scholarship** (2026); **Stanford Machine Learning Specialization** (Coursera); **Acecook Happy Scholarship** (2024); "**Tiep Suc Den Truong**" (Tuoi Tre Newspaper, 2024); **Hue Study Encouragement Scholarship** (2025).
